WORK EXPERIENCE

Software Engineer - Full Stack Ather Energy

03/2022 - Present

Bengaluru

Achievements/Tasks

- Developed a subscription management system using Node.js and ReactJs for electric vehicle charging services.
- Integrated secure payment gateway via Razorpay and ensured data encryption for transactional processes.
- Collaborated with a cross-functional team to design and implement the application's features and functionalities.
- Optimized system scalability using Amazon ECS application load balancers to handle a high volume of subscriptions and user traffic.

Associate Software Engineer Accenture India

05/2021 - 03/2022

Bengaluru

Achievements/Tasks

- Created a dashboard to monitor real-time financial transactions, providing actionable insights for stakeholders and ensuring data accuracy and security using ReactJs.
- Designed and developed the backend system to manage financial records, including data storage, retrieval, and processing using C#, .Net and MySQL.
- Implemented job scheduling cycles for automated financial processes, optimizing efficiency and accuracy in handling financial transactions.

INDEPENDENT PROJECTS

Camp Bridge

- An interactive web application for college providing students insights about the smallest events taking place in the college.
- It enables students to get connected with their peers sharing similar interests and form societies.
- Tools Used :- PostgreSQL, ExpressJS, HTML, CSS, JS.

EDUCATION

Bachelor Of Technology (CSE) GL Bajaj Institute Of Technology

08/2017 - 07/2021

8.8 GPA

Intermediate (PCM)

Rani Laxmi Bai School Lucknow.

04/2016 - 04/2017

90%(CBSE)

SKILLS

JavaScript

NodeJS

Bull Jobs

SailsJS

PostgreSQL

Data Structures & Algorithms

C++/STL

Semantic UI

NextJS

ReactJS

Problem Solving

.Net

ACHIEVEMENTS

Taken the ownership to successfully migrate the legacy code base running on Node 10.23 to Node 18.1 at Ather.

Mentored freshers for advanced Javascript concepts and process understanding at Ather.

Assisted new team members in onboarding, introducing them to the company's development processes, coding standards, and tools.

Conducted regular code reviews and provided constructive feedback to help improve the quality and efficiency of their work.

Ranked 2/100+ in the Inter College Coding Competition during graduation.

Taken various live sessions solving the doubts of the students and mentoring them at Coding Ninjas.
